_____

Education

The University of Texas at Arlington, Arlington, TX   **Present**
- Masters of Science, Computer Science

Medicaps University, Indore, India   **May 2011**
- Bachelor of Engineering, Information Technology

Technical skills

- Languages: Python, Java, C/C++, HTML, JavaScript
- Databases: Oracle, DB2, SQLServer, PostgreSQL, MySQL
- Operating System: Unix, Linux, Windows
- BPM Products: Pega PRPC
- Tools: MS Excel, NetBeans, Eclipse, Toad, SQuirreL

Experience

Tetrasoft Inc.   **Apr 2018-Nov 2020**
- Neonatal Intensive Care Unit Application Development: The client for this project is Anthem. As part of this project, I developed an authorization module for an application to be used for handling Health Insurance of newly born babies. The application uses PRPC 7.3.1 with CPM for Healthcare.

Pegasystems   **Aug 2014-Apr 2018**
- GCS Apps development: As part of this team, I developed following functionalities: Support Portal for GCS operations, Portal for cloud operations, Portal for engineering teams to collaborate on Bugs and Enhancement requests using Pega PRPC.
- Data Engine Development for Pega PRPC: This team is responsible for development of PRPC data engine in Pegasystems. As part of this project, I came up with many new features as part of using elastic search for search functionality, BIX as an add-on product for data extraction using Java.

Infosys Limited   **Aug 2011-Apr 2014**
- Finacle Porting: In this project, we, as a team of 4, upgraded an existing bank's software from its outdated version to the latest one. This would mean a multi-level upgrade and enhancements in terms of database and security.

Awards and Recognitions

- Star award for excellent efforts for on-time delivery of high priority tasks.
- We Team award for being the team which excelled in contribution for the growth of the company.
- GEM Award for being the key performer for the organization
